DAYLILIES EXCLUSIVELY

## — F O R E W O R D —

HEMEROCALLIS, commonly called daylilies are being acclaimed by flower lovers throughout the country for their incomparable garden value.

Thriving in all types of soil from sand to clay they produce a wealth of bloom with minimum attention.

Plants vary in height from about one ft. to five ft., making them adaptable for borders, rock gardens, and in shrubbery borders.

We grow hundreds of varieties in our field. Many are under trial and others are in too short of supply to list at this time. Those proving satisfactory will be added to our list from time to time.

### PLANTING & CARE

Plant either in full sun or where they will receive about six hours of sun daily. Reds & some of the other deep colors are best planted where they receive some protection from the hot sun, such as on the East or North Side of shrubbery borders. High drifting shade is fine but avoid planting in those densely shaded areas.

Space plants about two ft. apart. Spread out roots and set to a depth so that ground level will be one inch above point where roots and foliage meet.

Mix a handful of bone meal and one or two of sheep manure into the soil for each plant when setting. Compost is excellent incorporated into the soil. Do not over fertilize. Water well until established. If planted in hot weather a wise precaution is to shade plant until growth starts.

### HARDINESS

Nearly all varieties are hardy from Canada to Cuba. Some have asked if daylilies grown in Florida are hardy in the North? "Yes, they are," as hardiness is inherent in the variety, and does not depend upon where it is grown.

### TOP QUALITY PLANTS

Our plants are strong and vigorous. They are properly grown and not "blown up" with irrigation and strong fertilizer.

We shall as in the past send out quality plants that are full of vigor. Plants that will live & grow and give satisfaction.

### RECURRENT BLOOMERS

Most all varieties we list bloom several times yearly here in the South and many will repeat in the North.

### ONE OR A THOUSAND

Should you wish only one plant to add to your collection, or should you require a thousand or more for naturalizing we will be pleased to fill your order.

### PRICES

Although prices of labor, postage and materials have advanced sharply during the past year you will find our prices reasonable, in fact many have been reduced this season. Our prices are based on strong single divisions properly cut back for transplanting. All named varieties will be properly labeled.

Orders of \$3.00 or more are post paid. On orders under \$3.00 please add 25¢. Kindly add 10¢ exchange on checks. Make all checks or money orders payable to RAINBOW DAYLILY GARDENS, P. O. Box 644, Leesburg, Florida.

### GARDEN CLUBS

On pooled orders from Garden Club members we shall allow a discount. Write us your needs.

**NO. 60 M. 2½ ft. D.** A seedling that has proven very popular. The medium sized flowers are dark red purple. It is a very profuse bloomer due to it's multi-flora parentage. Much liked by those who have tried it in their gardens this past season. Limited Supply. **\$1.00**

#### **SEEDLINGS**

We flower several thousand seedlings yearly. These being raised from carefully hand pollinated seed. Of these a few are set aside for further testing. The balance being too close in color to already named varieties are sold in mixture & offer an excellent value. Plants are large & vigorous. No culs. For those caring nothing for names we offer these in a good color range at the following attractive prices. Not labeled.

**\$15.00 per 100 F.O.B.**

**8.00 per 50 F.O.B.**

**4.50 per 25 F.O.B.**

**2.50 per Dozen postpaid**

#### TIME OF SHIPMENT

We start filling orders for the South early in March and continue until Dec. 1st. for Fla. planting.

For shipments to the North we advise planting no later than early in Sept. Plants should become established so that loss or injury will not result.

#### A SUGGESTION

If you are interested in daylilies our advice would be to join the Hemerocallis Society.

Besides news letters you will receive a beautiful Year Book that contains much valuable information. Yearly dues are \$3.00, payable to Mr. Geo. E. Lenington, Sec. The Hemerocallis Society, Box 139, Kansas City, 10, Mo.
